Applicant Agreement

I, the undersigned, understand that this is a limited first-come, first served program, that rebates are given only for projects which have applications that are approved, and that the City of San Diego Public Utilities Department (Public Utilities) can deny any application that does not meet program requirements (which may change without notification). I have voluntarily determined to participate in the City of San Diego's Outdoor Conservation Rebate Program and understand that no rebate will exceed the cost of the item purchased or exceed the stated maximum total dollar amount per customer rebate. I understand that my Public Utilities account must be in good standing to receive a rebate check. I agree that all work performed will comply with applicable State and local laws, ordinances, and regulations. If this application is approved, I agree that Public Utilities Water Conservation staff may conduct a post-installation site visit at my property, and verify that the project has been completed according to program requirements.

I understand that proper installation of rain barrels and downspouts is my responsibility, as is determination of the adequacy and compatibility of the drainage, adjacent landscape and surrounding area. I understand that with a post-installation visit, Public Utilities makes no determination with respect to choice, quality or suitability of workmanship, materials or equipment. I acknowledge that installation of rain barrels and downspout redirects may not result in lower water bills, and that rebates do not apply to sales tax charges.

I understand that project site shall be available for future monitoring (up to three years) by Public Utilities. Photos of the project site may be taken by Public Utilities staff to illustrate the use of rain barrels. Addresses to project sites participating in the rebate program will be available to the public. Customer names will not be made public nor associated with the site addresses.

If this application is approved by Public Utilities, I agree to defend, indemnify, and hold harmless Public Utilities, its agents, officers and employees against any and all loss, liability, expense, claims, suits and damages, including attorney's fees, arising out of or resulting from the Program and/or installation of rain barrels. I have read, understand, and agree to the terms and conditions of this application and the rebate for which I am applying.

I understand that Public Utilities is not responsible for items lost or destroyed in the mail/transit or email. Please consult with a tax advisor for questions regarding potential tax implications of your rainwater harvesting rebate.
